

Rain Poncho

SKU: SN606

Sachtler Bag Rain Poncho

PRODUCT DESCRIPTION

- Designed to cover the user carrying mixer and fully loaded Eargonizer bag
- Constructed of 420 denier black ripstop nylon, laminated with thin Thermoplastic Polyurethane (TPU) coating that provides greater elasticity and prevents water seeping through
- Lighter fabric keeps the user cool and comfortable
- "Tile-style" opening at the back allows fresh air to flow inside to prevent over-heating
- Front section made of transparent TPU for maximum visibility of working equipment
- Slotted "pass-through" hand openings on either side marked with white binding to facilitate quicker and easier access to equipment controls
- Long roomy sleeves provide freedom of motion to hold boom pole or other gear at arm's length and still keep mixer and equipment bag safe and dry
- Fits into handy drawstring net mesh pouch for easy storage and transportation
