Sachtler Studio 9+9 Fluid Head with Touch & Go Camera Plate

PRODUCT DESCRIPTION

This product has been discontinued and replaced by the [Cine 50](#)

When you need super smooth movement, even in the toughest of conditions, Sachtler's Studio 9+9 Fluid Head adds two drag levels to Sachtler's frictionless damping system. Its 18-step counterbalance system means you never have to worry about losing your balance during any kind of movement. The sliding plate with an integrated spindle drive makes centering the camera weight simple and fast – the plate settings can be locked into place once you are happy.

The Studio 9+9 supports up to 55 kg and also boasts many well-known Sachtler features. The Touch & Go quick release and automatic locking make mounting and removal a matter of seconds. The durability of the design means that pressure of temperature will never affect its performance, making it suitable for almost any kind of project.
