

System 25 EFP 2 D Dolly

SKU: 2514

Sachtler System Video 25 aluminium with
Fluid Head, EFP 2 D Tripod , Dolly S &
Cover

PRODUCT DESCRIPTION

Comfortable with payloads up to 35 kg, the Sachtler Video 25 Plus is a remarkably lightweight studio and outside broadcast fluid head. A seven-step clamping system means that you be sure your shots won't ever suffer from unwanted jerks and vibrations. The 18-step counterbalance system lets you concentrate on getting the perfect shot, knowing that your camera is always securely positioned and protected from tipping.

The days of fumbling around with clumsy attachments are over, with Touch & Go quick release and automatic locking for speedy mounting and removal. Sachtler's frictionless leak proof fluid damping with seven levels of drag helps with smooth panning and there's a sliding balance plate too. Designed to guarantee high performance in any kind of shooting environment, and in any lighting conditions.

Getting the best results in fast changing or unpredictable environments requires gear that gives you versatility and reliability. The Sachtler EFP 2 D is a two-stage aluminum tripod especially suited to field production. Sachtler's quick clamping system provides simplicity of use wherever you are and allows you to visibly lock the tripod in seconds for maximum security. Once in place, the continuous twin tubes keep the tripod stable while you get down to work.

The Sachtler EFP 2 D design features a 150 mm spherical shell, 22 mm tube diameter and a maximum height of 161 cm as well as boasting capacity of 90 kg. The aluminum construction can hold up to the rigors of any shooting schedule and will continue to provide reliable, safe performance wherever your work takes you.
