

System 7+7 HD MCF

SKU: 1973

Sachtler System Cine 7+7 carbon fibre with Fluid Head, ENG 2 CF Heavy-Duty Tripod , Mid-Level Spreader & Bag

PRODUCT DESCRIPTION

This product has been discontinued and replaced by the [Cine 20](#)

Combining the established cine-features of larger Sachtler heads with the advantages of a more compact 100 mm fluid head, the Sachtler Cine 7+7 HD Fluid Head is a perfect solution for people working with lighter film set-ups. Designed for film and video camcorders that feature a 100 mm ball and provides two support ranges: 2-15 kg for shooting with compact-sized cameras, and 9-22 kg for shooting with medium-sized cameras.

Its Sideload clamping system combines the features of a quick release plate and a sliding balance plate to make it easier to mount and dismount the camera from the tripod. Seven step horizontal and vertical drag settings, very wide load range, Speedbalance technology and a front pan bar give you a full range of seamless smooth movement.

Being able to support heavier payloads doesn't mean that you have to give up on speed, simplicity and reliability. The Sachtler ENG 2 CF Heavy-Duty Carbon Fibre Tripod handles up to 95 kg while providing the lightweight, durable design that helps crews all over the world create amazing results in a range of environments. The carbon fibre design is stable and twist resistant, while the quick clamping system makes its simple to setup and start working safely.

The Sachtler ENG 2 CF Heavy-Duty Carbon Fibre Tripod's dual extension provides a maximum

height of 161 cm, along with a transport length of 75 cm and weight of 4 kg. Making everything easier is a built-in transport safety cord that prevents the legs from opening while you are moving the tripod. Operate with confidence in all environments with this robust and reliable tripod.

TECHNICAL SPECIFICATIONS

Range	Cine
Temperature Range	-40 °C to 60 °C -40 °F to 140 °F
