

## System Ace XL FT GS

**SKU:** 1017GS

Sachtler System Ace XL carbon fibre with Fluid Head, flowtech® Tripod, Ground Spreader & Bag

## PRODUCT DESCRIPTION

Professional performance means maximum stability and jerk-free camera movement, even when supporting heavier digital cine-style cameras and rigs. The Sachtler Ace XL Fluid Head supports up to 8 kg @ 55 mm cog and the eight counterbalance steps mean that camera balancing is always quick and simple. The lightweight design means that it won't weigh you down, while the high degree of stability means that it won't let you down either.

Being able to work quickly and efficiently also means being able to get the perfect shots easily. Once you have balanced your camera, patented Sachtler drag always gives you subtle and smooth movement. Three horizontal and vertical grades of drag also help you work intuitively and quickly, while always being sure your gear isn't letting you down. The 75 mm head fitting has a large sliding range of 120 mm, helping to give the flexibility to work in the way that gets you the best results.

Work faster whatever conditions you find yourself in with Sachtler flowtech® 75 Carbon Fibre Tripod. The unique flowtech design allows you to deploy and adjust in the time it takes to release a single catch. When speed is critical or time is of the essence, instant setting up and packing lets you focus on the things that matter. The carbon fibre design you won't tire yourself carrying it around either.

Setting up fast is only part of the equation. The Sachtler flowtech75 aktiv gives you the versatility and stability you need to get the job done fast and efficiently. A hinge lock gives you a height range of 26 – 158 cm allowing you to shoot from any angle while high torsional stability means you pan with complete confidence that the legs won't twist. Easy to use and built to endure the toughest environments, this tripod won't let you down.
