

Tripod OB 2000

SKU: 6481

SachtlerOB 2000 Heavy-Duty aluminium
Tripod for Flat Base Fluid Heads

PRODUCT DESCRIPTION

If you are using heavy cameras, you are going to need equipment that makes the job easier rather than harder. The Sachtler OB 2000 Heavy-Duty aluminium Tripod is designed to help you get the best results for field production and outside broadcasting. The heavy duty tripod supports up to 140 kg with maximum stability, while the built in bubble and leg scaling give you pinpoint and fast leveling. A built in stabilizer and rotatable rubber feet give you a solid foundation to work on.

The fitting supports all common flat base heads, so you are not restrained in how you work. Once you are up and running, the OB 2000 gives you a maximum height of 124 cm, while the rotary clamping system makes it quick and simple to adjust. The aluminum construction means that this tripod will be able to stand up to the most demanding projects.
