

Video 75 Plus Studio

SKU: 7501

Sachtler Video 75 Plus Studio Fluid Head
with V-Plate

PRODUCT DESCRIPTION

Capable of delivering high performance while supporting 85 kg, Sachtler Video 75 Plus Studio Fluid Head is a versatile and durable addition to your gear. The 24-step counterbalance system and V-plate works in any environment to secure your camera in place and provide perfect balance at all angles. The modular design makes it simple to customise your gear to get the performance you need.

The Video 75 Plus Studio also boasts many of Sachtler's innovative features, including frictionless fluid damping with nine levels of drag for smooth movement. If speed is critical, you can disengage the drag without affecting the counterbalance, and since the system contains no hydraulic oil you never have to worry about leaks.
